CANNED GOODS
NEAR 5 BILLION

From Small Beginning Industry Grows to Great Magnitude

WASHINGTON, Feb. 28.—From a small beginning the canning of food has grown into a billion dollar industry. As figures for these days even the production of a billion cans of food is not a great thing. It is almost more than the human mind can grasp.

THREE BILLION CANS

An idea of the magnitude of the industry may be gained from the latest U. S. Census report (1919) on canned goods. Exclusive of molasses and syrup, the figures follow:

Number of cans of food produced annually:

Vegetables	1,385,890,363
Fruits	684,419,192
Meats and Canned	333,014,116
Other	1,016,823,182
Total	3,420,147,853

Therefore taking into account, potatoes, canned meats, other miscellaneous products, most of which are not included in the above figures, the total number of cans of food produced annually is approximately 5,000,000,000.

ARMY OFFICER PAYS TRIBUTE

Not only does the United States now lead the world in the production of canned foods but this food is the best of any country. Major J. H. Adams, U. S. Army, Chief of Subsistence, Quartermaster General's Office, recently said:

DOWN TO NORMAL

"We are about down to normal with our army food supplies now that we have our shelves filled up and the buying will naturally increase. I venture to say our purchases will be heavier than during the last two years. You can get an idea about what our army consumes along other lines when I say that our requirements for the coming fiscal year will equal something like:

960,000 cans assorted jam.
144,000 cans blackberries.
120,000 jars assorted jam.
36,000 cans assorted marmalade.
48,000 jars assorted other preserves.
120,000 jars assorted preserves.
168,000 jars assorted preserves.
216,000 cans (1 gallon) spruce.
48,000 cans (1 quart) olives.
72,000 cans (1 quart) olives.

BILLION DOLLAR INDUSTRY

All of which gives an idea of the immense amount of canned food consumed in the army alone. According to government statistics canned products in the United States amounted in 1919 to over \$200,000,000 and at least from \$200,000,000 to \$250,000,000 was paid that year to the farmer.

BODY FOUND IN
JORDAN RIVER

Police Suspect Foul Play in Connection With Unknown's Death

SALT LAKE, Feb. 28.—Mystery surrounds the death of an unidentified man, whose body was taken from the Jordan river just before noon yesterday one-half mile north of the North Ninth street bridge. A. L. Cooley, a farmer, while working near the river discovered the body and notified police headquarters. Wallace E. Kelly, assistant county attorney, said that an autopsy would be held today to discover the cause of death.

An examination made by Dr. J. J. Keegan, city physician, indicates that the man came to his death from some other cause than that of drowning. The police are of the opinion that the body is that of a foreigner, but they have been unable to identify it. The body was taken to the Hall-Roberts undertaking parlors after which the banks of the river were searched by the police, but no trace of clothing found.

Appearance of the body when found indicated that the man had died of first been thrown into the river head first, as his head was covered with mud. It was about five feet seven inches high, weighed about 150 pounds and apparently was about 40 years of age. He was smooth shaven and very dark.

IDAHO LETTUCE TO
BE SHIPPED EAST

ST. ANTHONY, Feb. 28.—R. C. Bennett, expert on the production of lettuce, delivered an address in the Fremont county court house yesterday afternoon to lettuce growers from Jefferson, Fremont and Madison counties, on the correct methods of raising lettuce.

Mr. Bennett of Lewiston, Idaho, returned a few days ago from Washington, New York, and Chicago with contracts for \$400,000 worth of California head lettuce. This is the largest contract ever given for this garden product. This first year Fremont county will produce about twenty-five carloads.

FALL FROM TRUCK
ON HEAD IS FATAL

LOGAN, Feb. 28.—Falling from a truck at the county poor farm yesterday, Hyman Wood, 26 years of age, was fatally injured and died 39 minutes following the accident. He fell upon his head, striking his head and fracturing his skull.

Mr. Wood was a former resident of Cedar City and was born and reared there. He lived at 285 North First West street in Logan and had a wife and two children. In 1917 he married Miss Eleanor Thompson, then of Newcastle, at Parowan.

The body will be sent to Cedar City for interment.

BILLY DOLLAR INDUSTRY

All of which gives an idea of the immense amount of canned food consumed in the army alone. According to government statistics canned products in the United States amounted in 1919 to over \$200,000,000 and at least from \$200,000,000 to \$250,000,000 was paid that year to the farmer.

SALT LAKE HAS
AQUATIC CLUB

Many Water Performers Are Developed by C. S. Leaf

Special Dispatch

SALT LAKE, Feb. 28.—Salt Lake City boasts of one of the most modern gymnasiums and swimming pools in the West, with a staff of expert instructors and numerous swimmers. C. S. Leaf, holder of numerous swimming records, under the tutelage of Mr. Leaf an array of fast aquatic performers is being developed who promise to add swimming laurels to Utah's fame.

The Leaf gymnasium is located in the chamber of commerce building. It is exclusive in its policy and was established to meet a popular demand for high class instruction of members of both sexes in all branches of health culture. Tuition is given to small classes, thus allowing opportunity for individual instruction and assuring the best results. Private tuition can be had in all subjects. In the gymnasium Professor Leaf and his assistants specialize in reducing and body building.

STAR PERFORMER

In aquatic sports Professor Leaf is recognized as one of the foremost performers and authorities in the United States. He holds the world's record for the swim from Antelope Island to Salt Lake City, having negotiated the distance of seven miles in 2 hours, 28 minutes. He also holds the record from Salt Lake City to Black Rock 5 hours and 15 minutes for the 12 1/2 miles. Another notable record as yet unsurpassed is one made by Professor Leaf in swimming from Salt Lake City to Antelope Island and back 11 miles in 6 hours, 42 minutes. He is the holder of several records also in the swim across the English channel over a course of 18 hours in a choppy sea.

Under the instruction of Professor Leaf, a number of his pupils have won some of the most important of the state swimming records, and one of them, Miss Pearl Kimball, holds state championship in the 100 yard stroke and back stroke record for a woman for the swim between Antelope Island and Salt Lake City. She covered the distance in 3 hours and 45 minutes, and is the only woman who ever attempted the swim. Miss Kimball is also state champion in the 100 yard swim from Black Rock to Salt Lake, which she did in 1 hour, 25 minutes.

GOOD RESULTS

Unusually good results have been obtained by Professor Leaf with juvenile pupils. Notable among his achievements in this line is the development of youngsters capable of negotiating the seven-mile Antelope-Salt Lake course. Del Mortensen was first among the youths who raced over the course, Eugene Lovelock, second, and Elton Lovelock, third. Several other of the younger pupils give promise of rapid developments under Professor Leaf's instruction into state championship class.

The wrestling and boxing department of the Leaf gymnasium is under the personal direction of Dr. Schell, whose ability, both as an athlete and an instructor, is well known throughout the west. The courses offered include thorough instruction in catch-as-catch-can, ju-jitsu wrestling and boxing.

PASTORAL DRAFTED
BY BISHOP MOULTON

SALT LAKE, Feb. 28.—The following pastoral from the Rt. Rev. Arthur W. Moulton, Episcopal bishop of Utah, was read in all of the Episcopal churches of the state on Sunday last in anticipation of the approaching Lenten season, which begins tomorrow.

The approaching Lenten season provides us with a rare opportunity to learn where the real values of life are to be found. Multitudes of men and women are on the wrong track. Appalling crimes are being committed. A sensual obsession has seized our people. The younger generation is in grave peril from the example of their elders. There is only one remedy for this, my friends, and that is to be found in the Christian religion. The church must lead. The church can lead only by definite precept and practice.

Therefore, in accordance with the age-long custom of the church and by her authority, I call you to acts of fasting and prayer, to self-denial and sacrifice.

Let us return to the old-time piety with its rugged virtues and its exaltation of righteousness. Let us go back to the Bible for its inspired and inspiring direction. Let us approach with enthusiasm the house of God and lift our hearts in holy worship.

It with deliberation and sincerity we seek the way, the truth and the life, we shall find it where it has always been found, in the personal fellowship of Jesus.

Lent presents us with this opportunity in an unusual way. Christians of all communions are realizing its richness. Men and women of outside all communions have learned to expect a difference in our living. If we will we can lead the way to a better kind of life.

Lent means something real. Are we strong enough to stand for what our church stands for?

"God's richest blessings attend your honest endeavors."

METROPOLIS HOLDS
LIVESTOCK EXHIBIT

METROPOLIS, Nev., Feb. 28.—Many high-class pedigree stock have been exhibited in the livestock show that closed last night, held under the auspices of the night school of the high school.

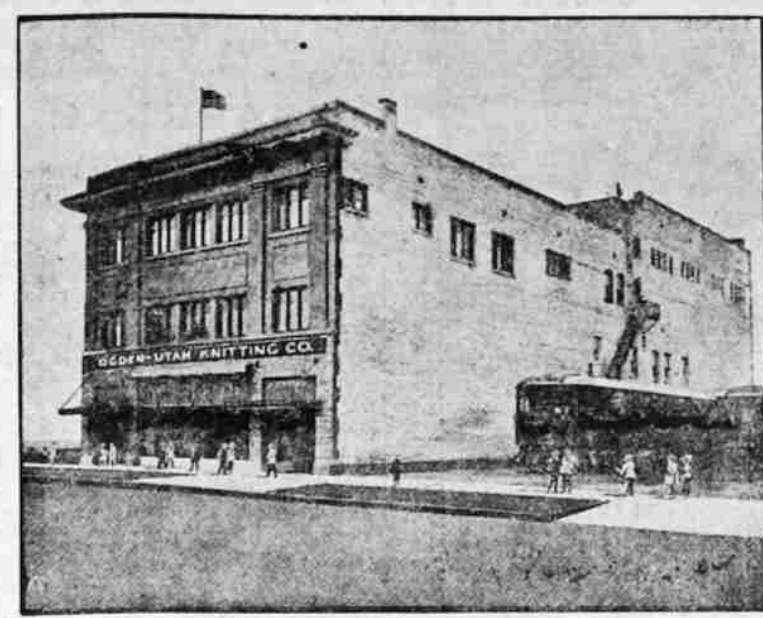

The principal speaker at the exhibition, which continued three days, were Professors Scott and Collins of the state university and Chester Brennan, Elko county agricultural agent. A bobble race was one of the amusement features of the show.

In connection with the show there was a display of art needlework and home cooking, directed by the Homemakers' club. Miss McElhinney, county demonstrator, lectured to the women in attendance, of whom there were many.

The night school has been largely attended by farmers of this section. Much of the work of the school consisted of theoretical farm management.

U. S. GRAND JURY
CONVENES AT S. L.

SALT LAKE, Feb. 28.—To investigate cases that have accumulated since the session last fall the federal grand jury convened yesterday in the United States district court. It is expected that the investigations will cover a period of two weeks. All jurors reported at 10 a. m., excepting George A. Startup of Provo. After waiting 30 minutes Judge Tillman D. Johnson prepared to issue a bench warrant for his arrest and arraignment on a charge of contempt when he appeared.

The grand jury is composed of S. W. Leigh, Andrew Lawson, Martin Isaacson, George W. Cahoon, John C. Melton, Richard Palmer, Mr. Startup, George J. Adams, Amos Cook, H. W. Valentine, H. C. Day, Raymond S. Wright, F. I. Wilson, John James, John E. Dooley, James G. Porter, Carl A. Orloff, Max A. McConahay. Mr. James was appointed foreman.

UTAH EX-CONVICTS
HAVE BRIEF LIBERTY

PUEBLO, Colo., Feb. 28.—After throwing pepper into the eyes of Sheriff Stevens of Hutchinson, Kan., while en route from Salt Lake to the state reformatory at Hutchinson, Torrey Murphy, Jimmy Held and D. Cummings, ex-convicts, escaped from Atchison, Topeka & Santa Fe train No. 12 and were recaptured by a posse of cowboys headed by Sheriff Taxton of Las Animas, Colo. They took the keys from the helpless sheriff, unlocked their handcuffs, climbed over the coaches to the engine and forced the engineer to stop the train at Oaddeo, Colo., a small station between Las Animas, Colo., and Lamar.

They had been serving sentences at the state prison of Utah and had been turned over to Sheriff Stevens to be taken back to the reformatory from which they had escaped. One of the prisoners was shot twice in a gun battle, before they were recaptured.

MATTSON DEFENDANT
IN SUIT FOR \$20,000

SALT LAKE, Feb. 28.—Sui was filed yesterday in the district court against David Mattson of Ogden and Harden Bennion former secretaries of state by the Sherry & Hutchinson company, trading stamp distributors, seeking to recover \$25,000.

The amount asked for in the complaints is alleged to represent license fees paid by the company under protest to Mr. Mattson and Mr. Bennion for \$550. John Pingree and H. P. Clark are bondsmen for Mr. Mattson and James H. Moyle, Hyrum Pingree and G. W. Lambourn for Mr. Bennion.

MAKES RULING ON
SCHOOL BUILDING

SALT LAKE, Feb. 28.—The state superintendent of public instruction has the right and authority to require specifications for school building construction which shall permit of compliance in all items of the work according to an opinion announced yesterday by Harvey H. Cluff, attorney general.

A code containing provisions to this effect is now being prepared under the direction of Dr. C. N. Jensen, state superintendent of public instruction.

Proving Kipling Was Wrong

East is east and west is west and the twain have met in Gin Sing, San Francisco Chinese merchant, and Miss Lerne Webster, Oakland, Calif. Here they are with Captain McGrath who married them on his ship outside the three-mile limit, a state law prohibiting their marriage in California.

National Canned Foods Week
Utah's Week-Ogden's Week

The week of March 1st to 8th inclusive, has been set apart by the National Canners' Association as a time to bring prominently before the public the wholesomeness of and wonderful service performed by commercial canned foods.

From a small, almost experimental, thing twenty-five years ago this industry has progressed marvelously until at the present time more than six thousand factories supply you each year with more than twelve billions cans of food.

The preservation of food by canning has done more than any other achievement of science to add to the variety and pleasure of your daily meal. Because of it you enjoy daily, with all their freshness and deliciousness, fruits from the Hawaiian Islands, Spain, Italy and California; mushrooms and peas from France; caviar from Russia; anchovies from Spain; sardines from France, Norway and Portugal; crab meat from Japan; salmon from Alaska and the Columbia river; tuna from the waters of the California coast.

By its power the choicest fruits and vegetables of summer are at your command during the winter and the variety of your table is multiplied many times.

In this great industry few states take a more important place than Utah and the industry centers at Ogden. Peas and tomato products are two of the principal items of canned foods. In Utah they are produced in vast quantities and nowhere are they better.

Piggly Wiggly is proud and glad to place before you today a representative list of Utah canned foods. We recommend this as a fitting time for you to become better acquainted with them.

"PIERCE'S" PRODUCTS

Packed in two of the best factories of America are "THOSE GOOD PEAS" of the Morgan Canning Co. under the following brands:

Don't refuse that invitation because of a poor complexion

Resinol
clears away pimples

No one knows the humiliation of being "wall flower" better than the girl with a red, rough, pimply complexion. If your skin is not fresh and smooth, or has suffered from an unwise use of cosmetics, try Resinol Soap and Resinol Ointment for a week and see if they don't begin to make a blessed difference. They also help to make hands and arms soft and white, and to keep the hair lustrous, glossy and free from dandruff.

All druggists sell Resinol Ointment and Resinol Soap. For a complete list of Resinol products, write to Dr. J. C. Piggly, Baltimore, Md. You'd better try them!
